Advanced patent information for innovation strategies

Information about companies or technologies

**We see only a minimum
what companies or
technologies let us see**

**Where can we find the
relevant information to
get a positive effect for
our innovation strategy?**

Analysis-Tool for technologies

IPlytics Platform

IPlytics is a online-based Market Intelligence Tool (<https://www.iplytics.com/>)

With a few clicks the user can analyse trends for technology or market activities and get a fast worldwide overview for market insights

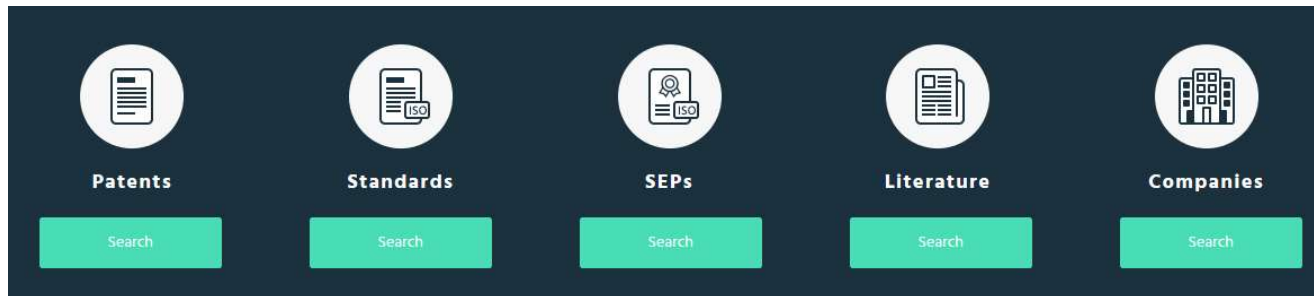

The screenshot shows the IPlytics website homepage. At the top is a dark navigation bar with the IPlytics logo on the left and menu items: HOME, PLATFORM (with a dropdown arrow), ABOUT (with a dropdown arrow), BLOG, CAREER, and a button labeled REQUEST A DEMO. Below the navigation bar is a central headline: "Gain access to multiple databases for your analyses and strategic conclusions". Underneath the headline are five statistics presented in a grid-like fashion:

- 60 Million Scientific Publications
- 90 Million Patents
- 3 Million Records on Companies
- 2 Million Standard Documents
- 250 k Standard Essential Patents

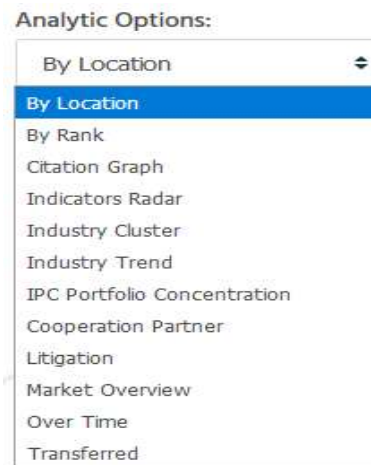

In the center of the statistics is an illustration of two hands holding a tablet computer. The tablet screen displays a dashboard with several circular charts and data points.
