BOLD IDEAS REQUIRE EXCEPTIONAL PARTNERS

FLUXUNIT — OSRAM VENTURES

About Fluxunit

We are OSRAM's corporate venture capital arm.

We invest in startups with novel technologies and innovative business models. We seek to accelerate your growth by leveraging OSRAM's leading position in the high-tech lighting industry. Yet, our investment scope goes well beyond pure illumination.

Your Advantage

As OSRAM's corporate VC, we have access to a global network of industrial and technological expertise. For more than 110 years, OSRAM has been shaping the international lighting market and has collected substantial experience along the way.

We leverage this knowledge to your advantage and make it available to you.

Our Investment Focus

Digital Infrastructure Solutions

Digitally connected systems and data analytics for professional buildings and applications

Future Mobility Solutions

Enabling future mobility and transportation solutions (e.g. autonomous driving, safety systems, etc.)

Advanced Sensor Applications

Optical sensor solutions improving productivity, security, safety, health, well-being, quality of life

Light Beyond Illumination

Novel solutions where light serves non-illuminating purposes (e.g. communication, materials processing, etc.)

Novel Horticulture Systems

Technologies and solutions improving performance, yield and quality in agricultural production

Future Fields

Emerging technology or commercial innovations adjacent to OSRAM's capabilities or business scope

Our Investment Strategy

Investment Stages

From early to growth

Ticket Size

€500k up to €10mn

Geographical Focus

Europe, North America, Israel
